About Me

Full-stack developer (Java Spring Boot | React/TypeScript) with 2 yrs experience shipping customer-facing web apps, hardening prod incidents in a SOC, and automating data pipelines in Python. Adept at debugging under pressure and collaborating across Dev + Ops. Currently finishing a B.Sc. in CS; eager to join a product team where I can grow ownership of backend services and cloud deployments.

Skills

- JAVA 17 / SPRING BOOT
- REACT 18, TYPESCRIPT
- HTML/CSS
- REST & Swagger/OpenAPI
- NODE.JS
- PYTHON
- MySQL/PostgreSQL
- BASIC AWS (EC2, RDS)

Education

The Open University of Israel

B.Sc Computer Science
2022 - Present

Full-Stack Development Certificate (Java)

John Bryce Training | 2023–2024

Work Experience

Security Operations Center (SOC) Analyst

Ness Technologies (First International Bank of Israel)
2024 - 2025

- Monitored security events using SIEM tools & threat intelligence.
- Investigated incidents & identified IoCs across networks & endpoints.
- Performed log analysis & escalated threats to incident response teams.
- Documented findings & improved response processes.

Technical Support Staff

Ness Technologies (First International Bank of Israel)
2022- 2024

Respond and work with clients to resolve numerous technical support related issues such as:

- Technical error troubleshooting
- Client interface troubleshooting and walkthrough
- Partnered with the development team to debug production incidents and push hot-fixes within SLA.

Software Engineer Summer Internship

Mint Media

May 2022 - July 2022

- Supported client projects involving Python for data analysis and back-end development.
- Worked on integrating Flask frameworks to create lightweight web applications.
- Contributed to automating workflows by creating scripts for data cleaning and extraction.

Projects

Coupon Management System

A web app for businesses to manage customer coupons.

- Tech: Java Spring (backend), React + TypeScript (frontend), MySQL, and JWT auth.
- Designed the database, built REST APIs, and created a responsive user interface.

Personal Portfolio Website

A modern portfolio website.

- Built with React (TypeScript), NodeJS, Tailwind CSS, PostgreSQL. & Vercel.
- Showcases projects & skills with modern, responsive design.
- Integrated unified API handler & serverless functions.
