MAX MULLOKANDOV

ABOUT ME

I am a Computer Science student at The Open University of Israel with a recent certification in Full Stack Development, specializing in Java and ReactJS. I have hands-on experience building web applications,
solving complex technical problems, and a commitment to deliver impactful solutions, I am eager to grow in a software development role.

WORK EXPERIENCE

Security Operations Center (SOC) Analyst
Ness Technologies
(September 2023 - Present)

- Monitor, analyze, and respond to security events using SIEM tools and threat intelligence sources.
- Investigate and triage potential security incidents, identifying indicators of compromise (IoCs).
- Perform log analysis to detect anomalies and suspicious activities across networks and endpoints.
- Respond to phishing incidents by analyzing email headers, attachments, and links to assess threats.
- Work closely with incident response teams to escalate and mitigate cyber threats.
- Document findings, create reports, and contribute to improving security processes and response strategies.

Technical Support Staff
Ness Technologies
Ness is a leading Information Systems and Technology services company.
(*September 2022 - August 2023*)

- Respond and work with clients to resolve numerous technical support related issues such as:
  - Technical error troubleshooting
  - Client interface troubleshooting and walkthrough
  - Communicating with and reporting to engineers on escalated issues

Summer Internship
Mint Media (Part-Time)
Design & development agency based in Montreal.
(*May 2022 - July 2022*)

- Supported client projects involving Python for data analysis and back-end development.
- Worked on intergrating Flask frameworks to create lightweight web applications.
- Leveraged Pandas and NumPy libraries to process and analyze large datasets for client reporting.
- Contributed to automating workflows by creating scripts for data cleaning and extraction.

LANGUAGE

Hebrew (Native)
English (Fluent)
Russian (Fluent)

EDUCATION

B.Sc Computer Science
The Open University of Israel
2022 - Present

Full Stack Development - Java
John Bryce training
October 2023 - July 2024

MILITARY SERVICE

Air Force Mobile Mechanic
2014 - 2017

SKILLS

- JAVA SPRING FRAMEWORK
- PYTHON
- REACT TYPESCRIPT
- MYSQL
- RESTAPI

PROJECTS

Coupon Management System - A web application that allows businesses to manage customer coupons efficiently. Developed using Java Spring for the backend and React with TypeScript for the frontend. My role included designing the database schema, implementing RESTful APIs, and ensuring a responsive user interface.
