

MAX MULLOKANDOV

FULL-STACK DEVELOPER | JAVA/SPRING BOOT | REACT/TYPESCRIPT | PYTHON/FASTAPI

✉ MaximPim95@gmail.com | ☎ +972-52-673-0386 | in [LinkedIn](#) | 💻 [Github](#) | 📁 [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building REST APIs, responsive front-end applications, and secure cloud-ready services using Java, Spring Boot, React, TypeScript, Python, and FastAPI. Background includes Security Operations Center experience, production troubleshooting, incident investigation, and collaboration with development and operations teams. Strong in debugging, backend API design, authentication, database work, and building user-facing applications. Currently completing a B.Sc. in Computer Science and seeking a full-stack engineering role where I can contribute to product development, cloud deployments, and scalable web systems.

TECHNICAL SKILLS

- ✓ Languages: Java, TypeScript, JavaScript, Python, SQL
- ✓ Backend: Spring Boot, FastAPI, Node.js, REST APIs, JWT Authentication
- ✓ Frontend: React, Next.js, Redux, Tailwind CSS, Responsive UI, RTL Support
- ✓ Databases: PostgreSQL, MySQL
- ✓ AI-Assisted Development: GitHub Copilot, Claude Code, ChatGPT, Cursor
- ✓ Cloud & DevOps: AWS Lambda, EC2, S3, RDS, Docker, Kubernetes CI/CD, Vercel
- ✓ Tools & Platforms: Git, GitHub, Linux, Swagger/OpenAPI, Postman, IntelliJ IDEA, VS Code

WORK EXPERIENCE

Ness Technologies | Security Operations Center Analyst

February 2024 - April 2025

- Monitored security events using SIEM tools, threat intelligence sources, and log analysis to detect suspicious activity across networks and endpoints.
- Investigated alerts, identified indicators of compromise, and escalated confirmed threats to incident response teams.
- Documented investigation findings clearly to improve handoffs, reporting quality, and response processes.
- Collaborated with technical teams to analyze production issues, strengthen operational visibility, and support service reliability.
- Built stronger understanding of secure systems, production monitoring, incident workflows, and real-world troubleshooting.

Ness Technologies | Security Operations Center Analyst

November 2022 - January 2024

- Resolved technical support issues for web and application users, including login problems, client-side errors, system behavior questions, and production defects.
- Troubleshoot application errors by analyzing user reports, reproducing issues, and coordinating with development teams.
- Partnered with developers to debug production incidents and support hot-fixes within SLA.
- Guided clients through technical workflows, improving issue resolution speed and user experience.
- Developed strong foundations in production support, debugging, communication, and cross-team collaboration.

PROJECTS

Coupon Management System

- Java, Spring Boot, React, TypeScript, Redux, MySQL, JWT, REST APIs
- Full-stack web application for companies and customers to manage coupon creation, browsing, and purchasing.
- Designed and implemented backend REST APIs using Java and Spring Boot.
- Built authentication and authorization flows using JWT.
- Designed MySQL database structure for companies, customers, coupons, and purchase flows.
- Developed a responsive React + TypeScript front end with Redux for centralized state management.
- Organized the system around separate admin, company, and customer roles.
- Created API documentation/testing support using Swagger/OpenAPI.

TileTech Web Development

- Next.js, TypeScript, Tailwind CSS, Vercel, RTL Support
- Marketing website built with a modern React-based stack and deployed to Vercel.
- Built reusable front-end components for layouts, UI sections, and page structure.
- Implemented Tailwind CSS styling with full right-to-left language support.
- Configured project structure using Next.js, TypeScript, Tailwind, and asset management through the public directory.
- Improved performance with image optimization and lazy loading.
- Deployed the project to Vercel for production hosting.

EDUCATION

The Open University of Israel 2023 - Present

B.Sc. Computer Science, Software Engineering

John Bryce College 2023 - 2024

Full-Stack Development Certificate (Java)
